CONCRETE BENCH 2

478.00 €

Backrest bench made of high-performance concrete, natural mosaic and certified wood. The concrete is reinforced and fiber reinforced. The mosaic structure contains natural marble or granite stones. They can be combined in different colors and are of a specific size. The planks are specially treated, which protects them from rotting and preserves the material's characteristics over time. The concrete surface is embossed and further treated with a protective coating. This makes the product even more resistant to aggressive weather conditions. The elements connecting the main components are from stainless steel. Together with its classic composition, the comfort in the seating area is achieved through its specially intended ergonomic design. The emphasis of the product is the vintage design solution for the concrete bearing parts. Great decoration for various urban areas, parks, alleys, schools, playgrounds and other public spaces.
