CONCRETE BENCH 239 ER Resysta exposed aggregate

Bench 239 is an elegant combination blending the comfort and warmth of the wood and the strength and stability of the concrete. The construction is supported by three legs made of high-performance fiber concrete and natural mosaic. The aggregate structure consists of natural marble or granite stones of a certain size and color variations. The concrete surface has a distinctive relief and is further treated with a protective coating, which makes the product even more resistant to aggressive weather conditions. The timber of which the wooden planks are made is certi ...
